

Winter birds of Payne, Pawnee, and Noble counties, Oklahoma

This checklist was built from a compilation of all Payne, Pawnee, and Noble County checklists submitted to eBird, Dec–Feb 2011–2020. It includes the 136 species most commonly reported. If you encounter a species not on this list, please try to obtain a photo, audio, or video recording to help provide the level of detail necessary to confirm the identification. Use the space at the end for species not on the list or unidentifiable observations, e.g., “meadowlark” when you can’t tell which one.

If using this form to report data to your local compiler for a Christmas Bird Count, please include the following data that the National Audubon Society uses to standardize birding effort:
